

Procurement in health for uncertain times

CLOSING SESSION

Áurea Morillo

General Secretariat of Public Health and R&D&I in Health
Ministry of Health and Consumer Affairs of Andalusia

THE R&D&I STRATEGY IN HEALTH OF ANDALUSIA

Priority Axes of the R&D&I Strategy in Health

Strategy 2020-2023

- ❑ Promotion of Research and Innovation in the Andalusian Public Health System (APHS)
- ❑ Fostering the development of human capital for the advancement of translational biomedical knowledge
- ❑ Attraction of resources for health research and innovation

NEW STRATEGY (Upcoming publication)

- ❑ 1. **PROMOTION**: improve the culture, capabilities, generation and translation of knowledge within the APHS through a responsible research and innovation (RRI) framework.
- ❑ 2. **INNOVATION**: drive the transformation of the APHS through new innovation programmes in smart specialization areas.
- ❑ 3. **HUMAN RESOURCES**: increase the number of excellent research professionals within the APHS.
- ❑ 4. **RESOURCE MOBILIZATION AND ALLIANCES**: increase the attraction of funding for R&D&I and foster strategic alliances, improving the sustainability and competitiveness of the current model.

THE R&D&I STRATEGY IN HEALTH OF ANDALUSIA

OBJECTIVES RELATED TO PUBLIC PROCUREMENT OF INNOVATION

Related to Axis 1: Promotion.

Implement innovation instruments

Facilitate the detection of unmet needs and configure Early Demand Maps

Train staff

Train clinical, scientific and management staff in PPI processes

Related to Axis 4: Fundraising and alliances

Promote new projects

Promote projects aligned with strategic areas that allow for the validation of innovative solutions.

THE ANDALUSIAN PPI IN HEALTH PROGRAMME

OBJECTIVES RELATED TO PUBLIC PROCUREMENT OF INNOVATION

Strategic Lines of the PPI in Health Programme

- Precision Medicine
- Digital Transformation
- Biomedical Engineering
- Environment and Health

Specific objectives already achieved:

Creation of the Public
Procurement of Innovation
Technical Office

Development of the
Early Demand Map in
Health of Andalusia

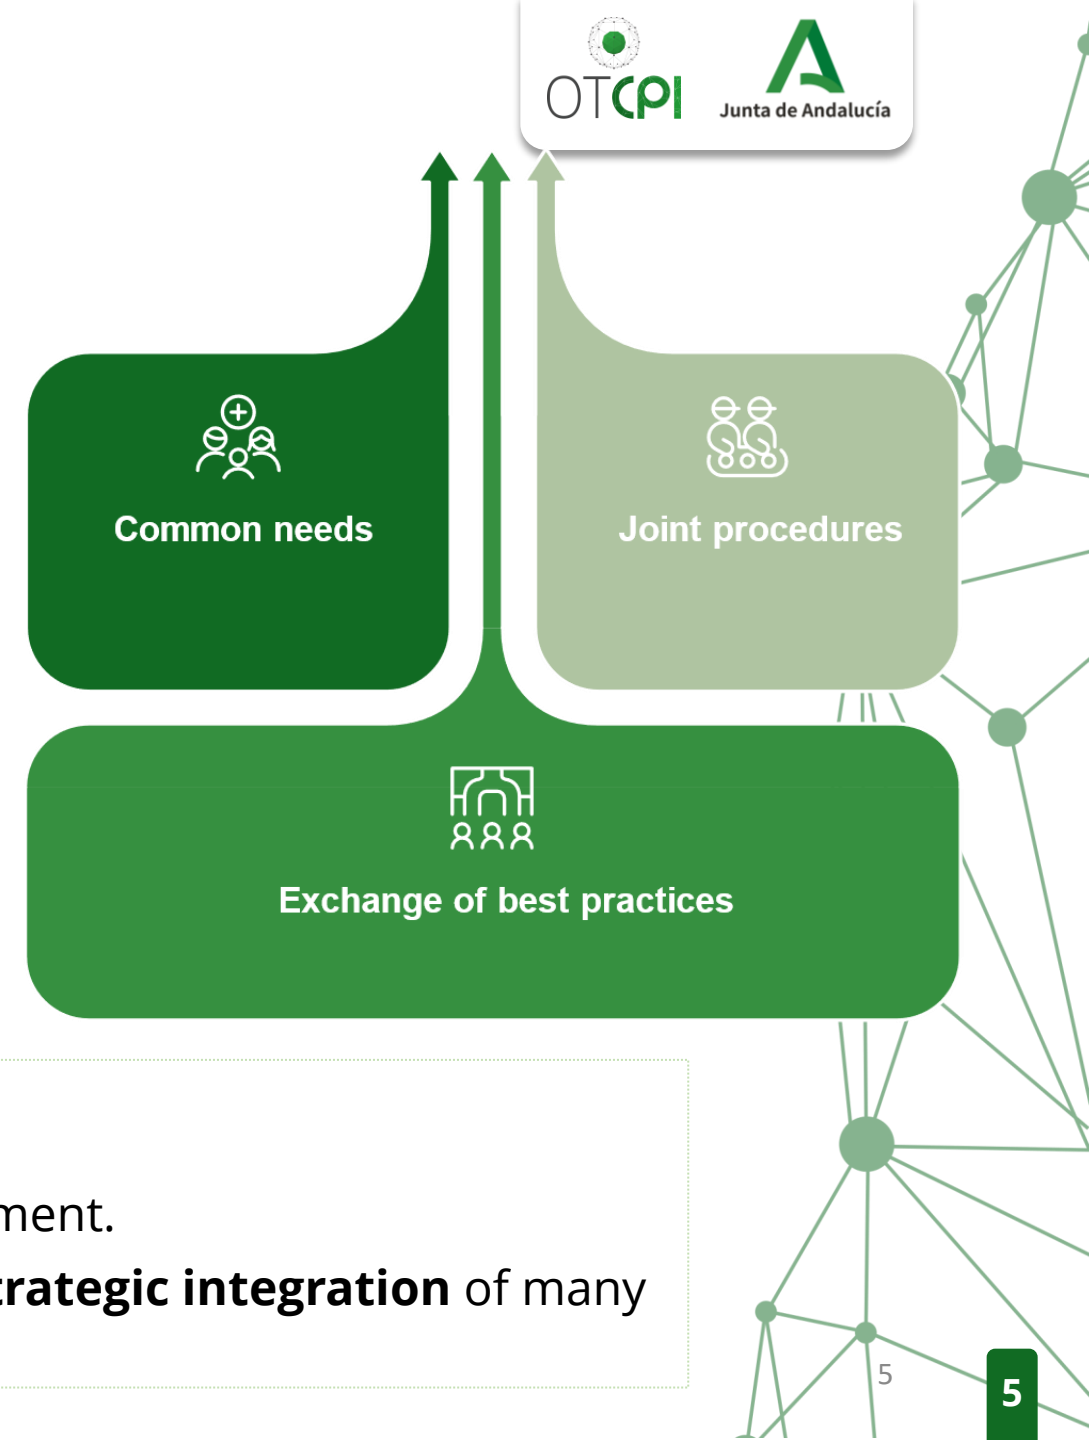

25 October 2022

CONCLUSIONS AND NEXT STEPS

Strategic Alignment of Procure4Health Locally adapted Action Plan with Andalusian Health Strategies

- **Full alignment** between the Procure4Health Action Plan and key regional strategies.
- **Sustainability** aligned with PEGAI.
- **Digital Health** integrated with the Andalusian Digital Health Strategy and Primary Care Plan
- **Personalized Medicine** aligned with regional innovation efforts.
- **Public Procurement of Innovation (PPI)** consistent with the Andalusian PPI Programme.
- **Early Demand Mapping** ensures strategic and operational coherence

Conclusion

The end goal: Generate impact through innovative procurement.

Health systems are **complex structures** requiring careful **strategic integration** of many elements

THANK YOU
