Innovation Procurement Hubs

Our programme
**supports public
administrations**
across the EEA in
transforming **public
procurement into an
engine of innovation**
and sustainable
growth

The Innovation Procurement Hubs (IPH) Programme established four core components ...

1 Innovation Procurement ecosystem map

Dynamic and interactive map of innovation procurement hubs, multipliers, and public authorities to enhance transparency across the landscape and foster exchange

3 Community engagement & management

Space for public buyers to exchange on common challenges, share practices that work, and connect with others to accelerate innovation procurement

2 Support packages for public authorities

Portfolio of direct consultancy support services to public administrations, covering the most relevant dimensions in the creation and scale-up of IPHs

4 Co-publishing space strategy

Strategy and plan for digital space enabling early-stage communication on societal challenges and innovation needs for public procurement purposes

... with benefits
for everyone

For public administrations

- ✓ Increased innovation **uptake**
- ✓ Improved **quality** of public services
- ✓ Better **alignment** on innovation needs

For innovative suppliers

- ✓ Reduced overhead for **participation**
- ✓ Improved **access** to public procurement
- ✓ Enhanced ecosystem **connectivity**

Join us in shaping the future of Innovation Procurement

 Stay engaged	Join the Community of Practice	
 Share your insights	Complete the Ecosystem mapping survey
